Reimagining Parenting Meetups

Meetups A parenting meetup solution for Parenting coaches

The Team:

Monjita Sharma

Pavana Shetty

Santosh Srivastava

Venugopal Nagarajan

Understanding Meetup Hosts

1. What motivated you to start hosting meetups?
2. What specific goals do you have for your parenting meetups?
3. How do you measure the success of a meetup?
4. What support or resources would make organizing easier?
5. Do you see challenged in other parents in raising a child. What are the challenges that you see?

Meet Our Persona

SHRUTHI, 27

Occupation: Parenting Coach

Traits: Empathetic, research-driven, community-focused

Background: Conducting research in Rapid Transformational Therapy (RTT)

Goals: Build a strong parenting support community, provide insights into childhood-rooted issues, help parents strengthen relationships with their children

Challenges: Establishing credibility without being a parent, engaging diverse groups of parents, managing logistics and attendance

Jobs to Be Done (JTBD) - Organizer's Perspective

Functional Jobs:

- Acquire Knowledge to become successful Rapid Transformational Therapist (RTT)
- Driving awareness on parenting issues
- Validate learning with RTT coach based on the therapy session offered to parents

Emotional Jobs:

Showcasing her mothers parenting style to the world as she felt gratitude for her upbringing

Social Jobs:

- Build credibility by showcasing her knowledge to many people during a meetup
- Build/develop network and community with like minded people

Unmet Needs

Jobs	Unmet Needs	Proposed Solution
Plan the Logistics	Lack of real-time updates on logistics arrangements due to the involvement of the apartment association.	Conduct an online meetup where logistics can be managed directly, ensuring full control over the setup.
Invite the Participants	Loss of a complete agenda of the meetup due to the involvement of the apartment association.	Use an online meetup where invitations can be shared directly with the signed-up audience.
	No insight into the kind of audience signing up.	Include a small form during signup to collect relevant audience insights.
Prepare the Agenda	Unstructured agenda due to a lack of prior information on the audience and their expectations from the meetup	Online meetup where speaker introductions, pre-read material, and the agenda can be shared beforehand.
Engage the Participants	Loss of time due to the audience catching up on the agenda and topic during the meetup.	Enable the speaker to have prior access to the audience through a chat window, allowing them to share the agenda and pre-read material before the session
Follow Up	No logistics to circulate the feedback form due to dependence on the apartment association	Share a QR code to collect feedback on the session.

Customer Profile Map

Job: Conduct a meetup for driving awareness on parenting issues.

Gains:

- No anxiety about the logistics and how it is managed.
- Speaker can help the audience to be on the same page as needed.
- Can collect and review feedback easily.

Pains:

- Don’t know the logistics in the venue
- Don’t know how the venue looks.
- Don’t know how much the audience is apprised of parenting issues.
- Don’t know if the apartment association has shared the agenda.
- No idea how to collect feedback.
- Worried when audience is cross-talking while the speaker is talking, making it hard to catch up

Value Map

Pain Killers

- Online meetup link to avoid physical logistics hassle.
- Creation of WhatsApp group to share pre-reading, invite, and agenda.
- Online platform to see all details of the meetup in a single place.
- QR code generation to collect feedback from individuals

Gain Creators

- Option to directly connect with the speaker for a one-on-one post-meetup.
- Access to meetup content even after the meetup

Offering

An online meetup platform

Value Proposition

How We're Different?

Privacy:

- Anonymous Participation
- Safe Environment

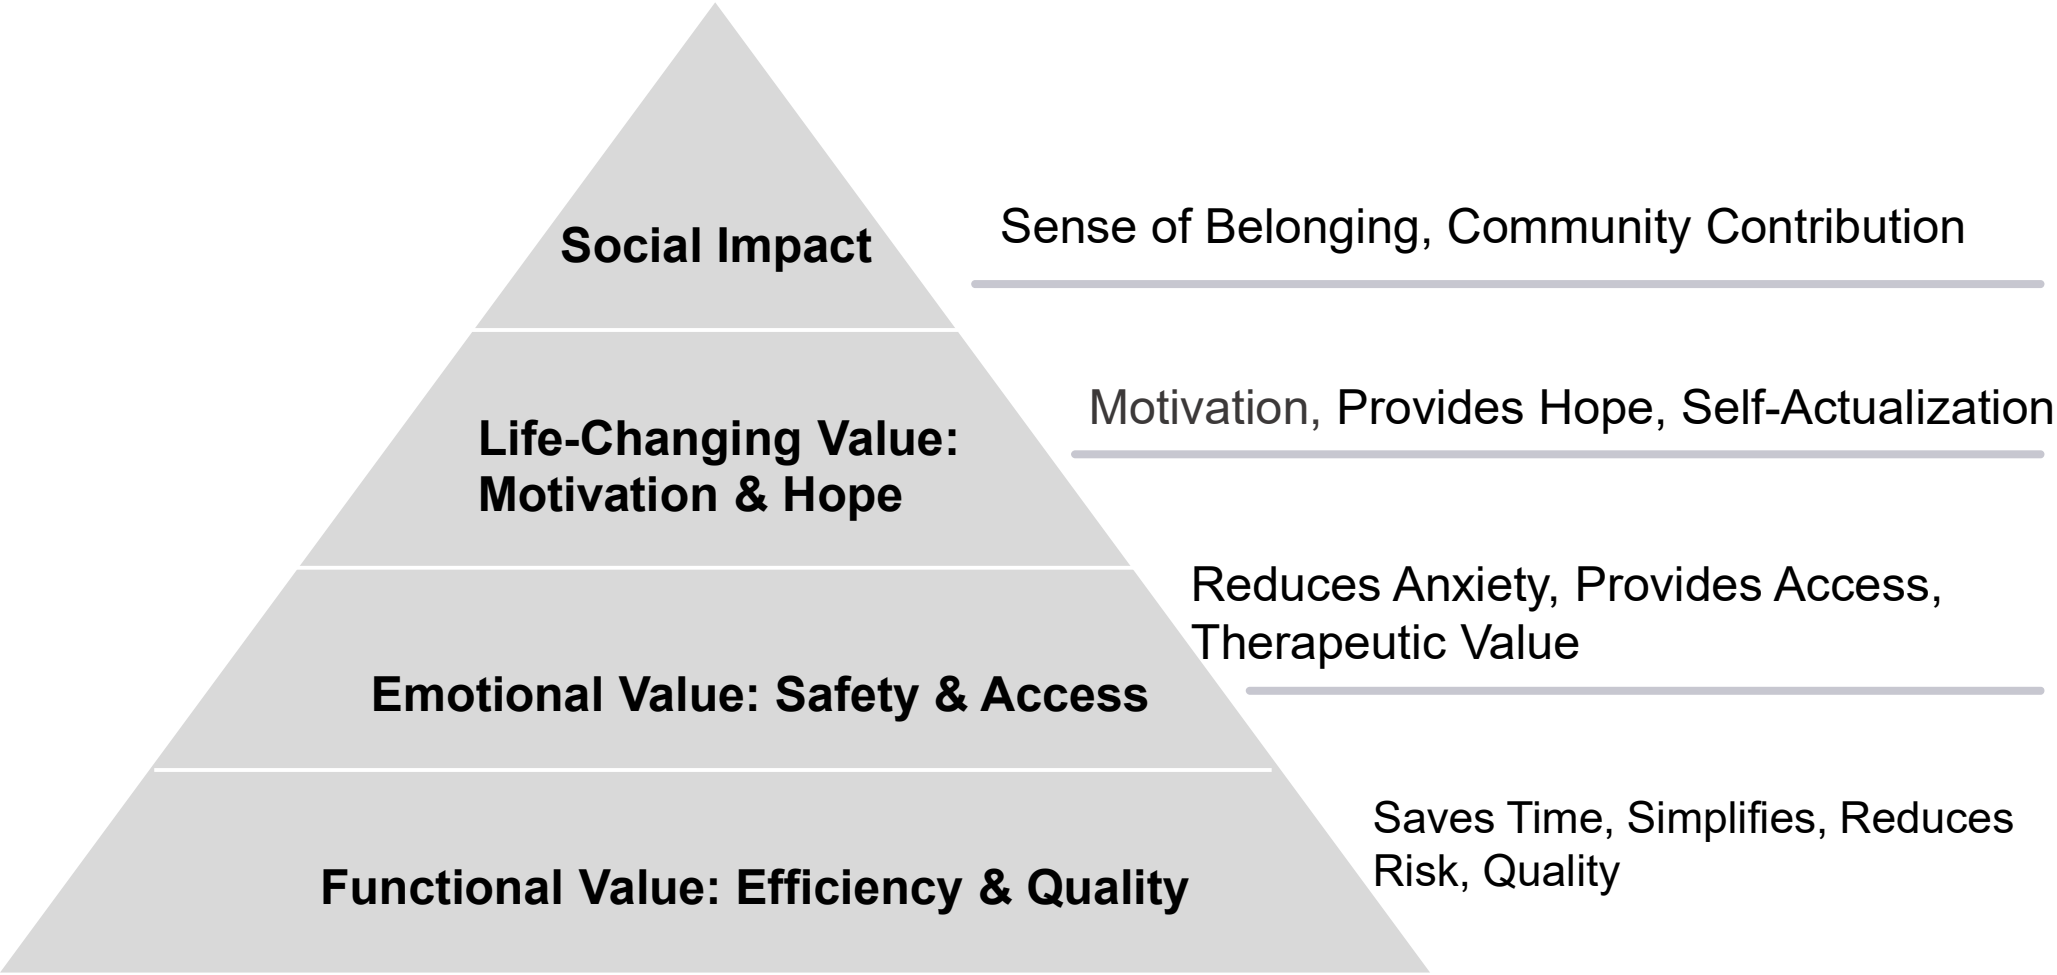
Clear and Structured Meetups:

- Clear Agenda
- Actionable Outcomes

Follow-Up and Feedback:

- Follow-Up
- Feedback Focused

Key Value Elements



Assumptions

- We believe Participants are interested in attending a meetup online instead of attending offline.
- We believe that parents will have the setup knowledge for conferencing tech for the meetup.
- We believe that parents are open to share on online parenting platform than offline Meetup

Hypothesis

- 60% of parents interested in a parent Meetup are willing to sign up for online
- 60% of the attendees have the tech setup knowledge to attend an online Meetup
- 40% of the attendees are ok sharing parenting challenges freely on an online than offline

MVP Experiment

- Google Form Survey for Interest Validation
- Pilot Meetup with a Small Group
- Instagram Poll or Story Q&A

Key Takeaways

- Our solution addresses key challenges faced by parenting meetup organizers.
- MVP experiments will validate the effectiveness of structured support solutions.
